## Job Description

---

**Job Type :** Remote

**Experience Required:** 4+ Yrs

### About the Role:

We are looking for a highly skilled and experienced Frontend Developer with expertise in VueJS. The ideal candidate will have a strong background in building scalable web applications, managing databases, and collaborating effectively within a team environment.

### Key Responsibilities:

- Design, Develop and maintain web applications using VueJS 2/3, ensuring responsive and dynamic user experiences.
- Design, develop, and maintain relational databases using SQL.
- Collaborate with cross-functional teams to define, design, and deliver new features.
- Participate in code reviews, ensuring code quality, performance, and scalability.
- Manage and track project tasks and progress using JIRA.
- Utilize Git for version control, ensuring smooth collaboration and integration across the team.
- Communicate effectively with team members, stakeholders, and clients to ensure project success.

### Required Skills and Experience:

- VueJS 2/3: 4+ years of hands-on experience in developing complex web applications.
- Proficiency with JIRA for project management and tracking.
- Strong experience with Git for version control.
- Excellent communication skills, both verbal and written.
- Ability to work collaboratively in a team environment and independently when needed.
- Strong problem-solving skills and attention to detail.
