Job Description

Job Summary: 1-1+ years

Job Description:

We are hiring a skilled RPA Team Lead / Technical Lead to guide an engineering team in delivering high-quality automation solutions for mortgage operations. The ideal candidate will lead developers, manage Agile execution, and ensure scalable, secure, and efficient automation delivery.

Key Responsibilities:

- Lead & mentor RPA engineers; ensure quality delivery
- Manage Agile/Scrum ceremonies & sprint planning
- Oversee automation development (UiPath, Power Automate, APIs)
- Collaborate with Product Owners & BAs to refine automation requirements
- Review design, code, documentation & ensure governance compliance
- Handle technical escalations & architectural decisions
- Drive reusable components, standardization & best practices
- Manage release cycles, change control & environment readiness

Qualifications:

- 1-1+ years of RPA development (UiPath / Power Automate)
- Experience leading engineering teams in Agile/Scrum
- Strong understanding of automation best practices & exception handling
- Good knowledge of APIs, SQL, workflows & integration patterns
- Excellent communication & leadership skills
